Lugansk State University of internal affairs

Specialist Degree, Jurisprudence

2004 – 2007

Lugansk State University of internal affairs

Bachelor's Degree, Jurisprudence

Recommendations

Svetlana

Marketer

What I got in partnership with Yaroslav (performer, for me, my partner in the project!):

1. Replaced the standard validation of 17 browser forms with a custom one. This validation contains many rules for filling out an e-mail, telephone (when filling out a form incorrectly, it does not allow it to be sent), this protects against incorrect sending and spam. 2. Modal windows have been supplemented with a form that sends a letter to the administrator with customer data and forms a table for the marketer on the server. I'm that marketer and the lead table is a gift! Form validation - without it, applications with incorrect contact information are often received. 3. Detailed animation - animated all headers, blocks, some sections. 4. Adapted even for Explorer

This is the most responsible partner with whom I have had to work freelance and not only. Always in touch, very delicate, loyal, accurate and always positive. Offers and helps to improve the project, delves into all the subtleties and details.

A stunning person, a great rare ...

Konstantine Koolkat

Photographer

Offers modern solutions with interesting functionality. As a result, the site stands out from the pile of similar visual legacy solutions.

Elena Batik

Designer and handmade
creator

Yaroslav did more than originally expected. At the beginning of the collaboration, I had superficial knowledge and vague wishes. Yaroslav helped to group everything, to understand, suggested additional solutions, added a number of interesting ideas. As a result, we got more than we wanted and with a very adequate work process. A pleasant work process for an adequate price tag.

Pavel Makeev

Designer

Working with Yaroslav leaves extremely positive emotions. Timely feedback and a responsible approach
